

4 3/4" "Rattler" Drilling Tool

Overview

The "Rattler" Drilling Tool was developed by Scientific Drilling to enhance Directional Drilling operations.

The tool is strategically placed in the BHA, above the motor, to provide improved ROP's by way of an oscillating movement within the system.

This in turn provides smoother drilling and lessens the chance of sidewall sticking .

The tools are currently available in 6 1/2" and 4 3/4" O.D.

Standard API Connections available.

**Hot-Hole Stators available on request.
